Go Global

Payout around the world

Accept payments in over 135 currencies and pay out fiat or crypto to your users in more than 50 countries with a single integration.

In the US, you can also add funds from your bank account to your CI balance to send payouts that are not tied to Freedom PSP transactions. To start, global payouts require payments accepted with FREEDOM PSP.

Invoicing

Email your customer a unique link to a CI hosted invoice page from a custom email domain or centurioninvest.com.

Customers can also download a PDF invoice online. Each invoice is optimised for mobile, tablet, and desktop with a responsive design that offers Apple Pay or Google Pay

On average, your customers will pay 3x faster when paying with Apple Pay or Google Pay.
